GOAL

Being an industrial designer who creates accessible designs of physical products and environment to enhance daily living.

EDUCATION

Rhode Island School of Design, Class of 2021

Providence, Rhode Island, United States
Bachelor of Fine Arts with Honors, Industrial Design, GPA: 3.828
Computation, Technology, and Culture Concentrator

EXPERIENCES

American Youth Literacy Foundation Design Volunteer
October 2021 - February 2022

Take up various design roles to support and publicize the 100% free FUNetix App, which teaches children to read in 12 hours. Tasks include designing merchandise, and managing art related events.

Estee Lauder Companies Packaging Design Intern
July 2020 - August 2020

Interned at the brand Tom Ford Beauty. Focused on drawing new designs and making color up files in Illustrator, modeling new jar concept to show company leaders, and creating labels for travel set containing required info while aligning with brand identity. All files created were clean with organized layers for effective team work.

Eyeluminati Product Design Intern
June 2020 - August 2020

Participated in ideating and producing visualization of new products for company's vision based AI platform. Created CAD models, marketing pamphlets, and logo designs. Learned to design not just a good result, but also an impactful and concise visual story.

RELEVANT RISD STUDIOS

Advanced Soft Goods Spring 2021

Directed my own doll design project. Began with research, and ended with sewn prototype, spec pack, and presentation. Research covered the toy industry, safety, and psychology. Collected feedback from others through spontaneous conversations as well as questions, and challenged myself to rethink the possibility of dolls.

SKILL SETS

Digital
